Community Garden

Chick and Duckling are at it again! Join them as they adventure into the world of gardening. Carolyn's newest book, *Community Garden*, is more than a story. Through her adorable main characters, Chick and Duckling, she teaches

her readers what a community garden is all about. From sowing seeds, to watching crops grow, and to the final reward of harvesting, we learn

the value of growing a garden together. Once again, Richard McNaughton has brought to life this story with his beautiful and inclusive illustrations.

"I learned that plants grow row by row"

"I like when Chick and Duckling were looking at the potatoes because I like the purple flowers"

"It was funny when Chick and Duckling hide in the crops. It's like they were playing hide and seek with the people"
